How to choose the right film finishes for your products:

Clear/Gloss

Brilliant, high-polished look that enhances color and sharpens definition for a dramatic visual impact

Lustre

Adds a sparkling sheen for richer color, with a semi-reflective finish for higher contrast and lower glare

Matte

Offers a flat, non-reflective finish that deepens colors and hides imperfections, perfect for images displayed in direct light

DID YOU KNOW?

Lamination was invented in the 19th Century when a dentist named Dr. Morris M. Blum used a dental laminate (AKA a dental veneer) to laminate a picture of his wife!

Lamination increases durability of print materials, allowing for frequent long term use

Table Top Laminators

Catena Series

Designed to laminate and mount prints from color printers and copiers, the Catena Series provides a simple way to finish your full-color digital output. These models feature heated rollers for cost effective finishing using thermal films and can also run pressure-sensitive films for additional applications.

Catena laminators are...

- Easy to use
- Versatile
- User friendly
- Provide superior quality

Catena laminators can run...

- Pressure sensitive films
- Thermal films
- Thermal and pressure sensitive mounting boards

Catena 35

The Catena 35 tackles demanding lamination jobs with ease and efficiency to keep your small print shop, office or institution running smoothly.

- Provides both thermal lamination and mounting applications for a wide range of projects up to 12" wide, including signage, maps, POP displays and more
- Mounting gap lets you mount jobs to foam board up to 1/4" thick quickly and without frustration

Catena 65

The Catena 65 tackles demanding lamination jobs with ease and efficiency to keep your small print shop, office or institution running smoothly.

- Provides both thermal lamination and mounting applications for a wide range of projects up to 27" wide, including signage, maps, POP displays and more
- Mounting gap lets you mount jobs to foam board up to 1/4" thick quickly and without frustration

DID YOU KNOW?

- ✓ Cold laminators save energy and are much less likely to wrinkle or cause bubbles when laminating.
- ✓ Lamination adds protection against fingerprints, smudges, stains, tears and abrasions!
- ✓ Laminating not only increases longevity of your print materials, it's also easier to keep them sanitized!

Wide Format Laminators

SPIRE Laminators

The SPIRE line offers the application versatility and labor saving benefits without the high price tag. All models are equipped with the laminating and mounting features needed to create profitable trade show graphics, backlit rigid displays and vehicle graphics.

SPIRE III 44T & 64T Thermal Hot/Cold laminators

Within this level of SPIRE laminators GBC brings to you a 44" and a 64" laminator with full top and bottom thermal capabilities. The laminators offer independent heat controls for top or bottom rollers. This great feature opens the door for a wider array of applications as it allows you to use a hot film on top with a cold adhesive on the bottom.

Wide Format Laminators

SEAL® 54 EL

54" wide cold laminator. Optional add ons roll trough, leveling feet and image guide.

SEAL® 65 EL

65" wide cold laminator. Optional add ons roll trough, leveling feet and image guide.

SEAL® 62 Base

62" wide with top heat assist temperature up to 107° F. Optional add ons roll trough, leveling feet, image guide, rear power take up and lower take up with autogrip shaft. Great fit for vehicle wraps.

SEAL® 62 Pro S

62" wide thermal laminator with temperatures up to 284° F. Single sided heat. Includes cantilevered shaft Optional add on includes roll trough.

SEAL® 62 Pro D

62" wide thermal laminator with temperatures up to 284° F. Dual sided heat. Includes cantilevered shaft Optional add ons include slitter, fan bank and roll trough.

SEAL® 65 Pro MD

65" wide thermal laminator with temperatures up to 270° F. Cantilevered auto-grip shafts. Bi-directional operation. Optional add ons include slitter assembly and extra single unit slitter.

Why invest in wide-format lamination?

- Provides a high return on a small investment
- Offers a quick turn around for an on-demand industry
- Creates a competitive advantage and enhances profitability

Benefits

- Enhance colors
- Create great mounted graphics
- Add texture and preserve wide format prints, signs, banners, posters, maps and more for long term use
- Easily create new and profitable applications just by changing the film

Flatbed Applicator for Rigid & Flex Media

Flatbed Applicator For Rigid & Flex Media

The fully equipped multipurpose applicator that gives you access to the superior production method. Its unique tilted table can reduce shipping costs and make entering doors easier. Fast assembly and easy operating.

- Tilted table for easier entrance and cost savings
- Side trays easily store media and provide capability to apply large format banners
- Durable 130mm diameter silicon roller has long lifetime and can meet different laminating and mounting requirements
- Media holder at the end of the table

Working width	5.25 ft

Mounting Adhesives

GBC standard mounting adhesives are constructed with an acrylic adhesive coating on both sides of a polyester carrier. One side provides a permanent bond to the graphic while the other side is used to adhere to boards or other rigid substrates.

A range of adhesives from low tack (Arctic® Lo-Tack) to permanent (Arctiv Vue- Thru) allows for mounting to a diverse range of surfaces such as windows and walls

Arctic Dura Mount is our most popular mounting adhesive. Bonds well to porous, non-plastic surfaces—perfect for posters, digital prints and price-sensitive projects

Arctic White Mount is a white polyester carrier coated with Duramount adhesive. An excellent choice for mounting onto black Gatorfoam and other colored boards

Our full selection of mounting adhesives are available at www.GBC.com

Film - Large Format

Film type

Polypropylene (OPP)

Polypropylene films provide a reliable and vivid finish at a cost effective price

Polyester (PET)

Polyester films provide a tough, durable finish for the most demanding applications

Lay-Flat (Nylon)

Nylon films resist curling to "lay flat" and minimize scratches from stacking and rubbing

Finishes

Clear

Clear gloss finish enhances colors and overall appearance

Matte

Clear film with a matte finish reduces glare

Scuff Free Matte

Clear film with a durable & scuff resistant matte surface

Adhesives

Standard adhesive

For most standard non-digital output applications

Digital adhesive

Specially designed adhesive for bonding to most toner based digital color output

Pressure Sensitive mounting

Adhesives – a pH neutral, double-sided adhesive film that provides a permanent bond. All mounting films are 3" core.

AutoFeed+™ Shredders

Promising reliability, security, and time savings at a price point that's perfect for your home or office. Spend less time shredding and more time on other tasks. The line of GBC AutoFeed+ Shredders takes the manual work out of shredding to make your day easier.

Nothing stacks up against AutoFeed+

- Extra high sheet capacity, long run times, and large waste bin sizes so you can safely dispose of everything in one trip.
- Powerful induction motor shreds through documents, paper clips and staples, so you don't waste time doing prep work.

Smaller pieces of shredding. Bigger peace of mind.

- Micro-cut or super cross-cut technology produce smaller shreds for added security.
- For smaller loads, the manual feed feature can take in as many as 20 sheets at a time.
- Easy touch forward and reverse anti-jam technology minimize downtime and costly service calls.

Strip-cut

CX30-55 Cross-cut Shredder

Item no. 1758583BF

Cross-cut shredder with 30 sheet capacity, extra-large 55 gal bin and extra-wide paper entry. Shreds CDs, credit cards, paper clips and staples. Automatic oiling ensures smooth performance.

CX40-59 Cross-Cut Shredder

Item no. 1753210BF

Cross-cut shredder with 40 sheet capacity, super-large 59 gal bin and extra-wide paper entry. Chain drive gears to power through larger jobs. Automatic oiling ensures smooth performance. Shreds CDs, credit cards, paper clips and staples.

CHS10-30 Level 6 High Security Shredder

Item no. 1753290BF

Highest Level 6 security for extra protection of your sensitive information.

Meets NSA/CSS Specification 02-01. 10 sheet capacity, ample 30 gal waste bin. Automatic oiling and continuous duty run time ensure this shredder keeps up with your most secure shredding needs.

CM15-30 Micro-Cut Shredder

Item no. 1753300BF

Micro cut shredder provides security for shared environments. 15 sheet capacity and ample 30 gal bin for shared space shredding. Shreds CDs, credit cards, paper clips and staples.

Banner Stands

Roll-Up Banner

The Roll-Up Banner stand is a cost-effective system for short term signage or promotions. It is designed with a reinforced fitting for the pole to ensure the display stands straight - no tilting or leaning. The top panel profile clamps the media securely in place without the need of adhesive strips and pole attaches to the top panel from behind. The included carrying bag unzips lengthwise for greater ease and has extra padding over its entire length to ensure the display stays looking great.

Item #	Quantity	Color	Panel Size	Visible Height
4001270	6 units/package	Silver	33 x 84.65 in	33 x 78.74 in

Roll Up Deluxe Banner

The Roll Up Deluxe Banner stand has several Key features making it a superior banner stand for retail, POP and trade show graphics. Upgraded benefits include adjustable pole, storage inside the base for the pole and top bar, and a knob to adjust tension on the graphic. The top panel profile clamps your media securely in place without need for adhesive strips. Complete with a carrying bag, Roll Up Deluxe is ready to go!

Item #	Quantity	Color	Panel Size	Visible Height

Customized Products

Vinyl Binders

The heavy gauge vinyl construction of our binders ensures excellent quality and durability. Available in a variety of attractive textures and finishes, GBC vinyl resists tearing and scratching. GBC can custom design binders to your exact specifications and business needs. Choose from a wide selection of decorating techniques that will enhance your company's image.

Customize • screen print • deboss • foil stamp • appliqué

Vinyl Folders and pouches

Custom design your company's message on our wide selection of vinyl folders and pouches.

Customize • screen print • deboss • foil stamp • appliqué

Sealed Inserts Vinyl Binders

GBC can design, insert and seal your art into a binder. Double polished, crystal clear overlay on the front, back and spine enhances the clarity of the binder artwork. Quality materials and heavy-duty construction make GBC binders the clear choice.

Customize • sealed inserts - digital or offset

GBC

GBC offers

Unlimited customization of your company's documents. GBC's Information Packaging specialists will help you enhance your company's image with eye catching details.

All of your company's presentation materials will be designed to your specifications. With GBC's design services, everything works together to strengthen the professional image of your company. Your documents will make a persuasive statement - inside and out.

- Offset Printing • Screen printing
- Foil Stamping • Embossing/Debossing
- Window punching • Appliqué
- Die-cut options over a wide range of products

Customized Products

Printing and production options

Offset or digital print

Create high-impact presentation products with offset or digital printing. This printing option is perfect for paper materials.

Screen print

With the capability to print vibrant colors on almost any material, screen printing is a great way to get your brand noticed. This popular technique works well with most of the materials we offer.

Foil stamp

Use this when you need a more expressive solution. With foil stamping, foil is transferred onto the material using a die made from your artwork. Metallic or matte foil and a range of colors let you tailor your image.

Emboss/Deboss

Create a raised or lowered impression directly on the printed piece. Embossing and debossing give an upscale appearance to almost any logo or type. Use it with screen printing or foil stamping for an even more elegant look.

Die cuts

Create information windows or other custom shapes. Die-cut solutions break through the clutter and make your materials more distinctive.

Ask your GBC representative for more information on other printing and production options.

Certificate and Diploma Holders

Manufactured with the same heavy gauge vinyl as our binders or cover stock of your choice, design a customized document holder exclusively for your school by incorporating your logo in the design. Choose from a wide variety of vinyl or cover stock colors and finishes to achieve your school's look of distinction.

Customize • screen print • offset • deboss • foil stamp • appliqué

Poly Binders

For superior strength and economical construction, consider GBC's 100% linear polyethylene binders. The poly material resists wear, won't warp or scratch over time and is environmentally friendly. The one-piece construction of a poly binder makes it durable, easy-to-clean and temperature resistant. Available in a variety of colors, thickness and ring metals to suit your requirements.

Customize • screen print • die-cut

Index Tabs

Custom index tabs are the solution for organizing large quantities of printed materials. Crisp offset or screen printing on paper or poly index tabs ensures that all the sections of your document are identified and understood. Available in a wide assortment of colors, stocks and sizes to meet your specifications. Add mylar reinforcement for outstanding durability.

New

Customized tabs with matching binders

Customize • screen print • offset • foil stamp • emboss • die-cut

Pocket Folders

Secure proposals, presentations or other important documents in an attractive and durable package. Quality construction and decoration techniques create a classic, professional look. Choose from a wide variety of colors, stocks and styles.

Customize • screen print • offset • foil stamp • emboss • die-cut

Customized Products

Cover sets and Therm-A-Bind®

Maximize the impact of your presentations with custom designed cover sets from GBC. Customize your covers using your corporate colors and logo. Add foil stamping, embossing or special die cuts for a sophisticated, professional look. Choose from a wide selection of cover stocks and colors that are durable, attractive and can be beautifully decorated.

Customize • screen print • offset • foil stamp • emboss • die-cut

Combs (cerlox)

Imprint your company name, logo or corporate message on the spine of plastic bindings. Combine with custom cover sets to create a corporate standard for first-class, professional presentations, reports and proposals.

Customize • pad printing

Presentation Cases

Market your materials cost-effectively with stylish graphics on durable polyethylene cases. Choose from a number of different handles and latches for convenient carrying and security. Complete your presentations with the comprehensive, professional look of custom packaging.

Customize • screen print • die-cut

EMA

Equipment Maintenance Agreements

SAVE MONEY AND PROTECT YOUR EQUIPMENT WITH GBC

What's included with Equipment Maintenance Agreements:

- Unlimited parts
- Unlimited travel to your location for repairs
- Unlimited labor costs from a factory trained service representative
- Priority phone response over non EMA service calls
- Scheduling priority over non EMA service
- Basic operator training
- No service lapse, you are contacted prior to expiration of EMA

Equipment Maintenance Agreements (EMAs) from GBC's Full Circle Service Team.

GBC provides service nationwide with over **50 Service Technicians** with a **95% satisfaction level**. Keep your equipment running at peak performance, whether you're buying it now or it's been running strong for years.

One price provides the **benefit of extended service coverage** – even if the product isn't manufactured by GBC.

Without protection, the cost to replace one key part could be more than the entire year of coverage.

Machines We Service

Electric/Hydraulic Cutters	Shrink Wrap Machines	Paper Folders
Paper Trimmers/ Substrate Cutters	Numbering Machines	Paper Joggers
Perforators/ Scorers	Collators	Paper Drills
Business Card Slitters	Booklet makers	Laminators
Shredders	Inserters	Staplers & Stitchers

FIND THE BEST SOLUTION FOR YOUR NEEDS ▶

For more information call:
(800) 463-2545

Unlimited Coverage

Investing in an Equipment Maintenance Agreement reduces your expenses and ensures the best possible protection for your equipment. One reasonable payment provides the benefit of unlimited service coverage. The labor and travel expenses of our Full Circle Service team members, as well as the cost of replacement parts, are all included in the original price of the service plan.

Product	*Estimated Typical Service Cost	1-Year Service Plan Cost	YOU SAVE
GBC ULTIMA 65	\$697.40	\$457.00	\$240.40
GBC MP2500IX	\$981.96	\$374.00	\$607.96
GBC SYSTEM 3 PRO-1	\$1,211.78	\$876.00	\$335.07
DUPLO DF-777	\$790.58	\$374.00	\$416.58

Multi-Year Maintenance Agreements

Save more by extending your Equipment Maintenance Agreement for up to five years. As the length of your agreement increases, so does your discount. A multi-year agreement not only protects your equipment in future years, but also allows you to lock in the current price.

Contract Length	1 Year	2 Years	3 Years	4 Years	5 Years
DISCOUNT	—	5%	8%	11%	13%
EMA rate if purchased with multi-year discount	\$100	\$95	\$92	\$89	\$87
Projected EMA rate if purchased annually*	\$100	\$102.50	\$105	\$107.50	\$110
Projected yearly savings	—	\$7.50	\$13	\$18.50	\$23
PROJECTED SAVINGS		7.3%	12.4%	17.2%	20.9%

Multi-Machine Maintenance Agreements

Further increase your savings by covering multiple products. With four or more machines placed under Equipment Maintenance Agreement, receive an **additional 10% discount for each machine.**

This image shows a blank sheet of white paper with horizontal ruling lines. On the left side, there is a decorative gray curved border that sweeps from the top towards the bottom. The rest of the page is filled with evenly spaced horizontal lines for writing.
