Go big or go small

The world's easiest A3–A1 printing experience[1]

Large format and A3 printing made easy and efficient

Large format printers are vital for architecture, design, and engineering teams. They're how plans come together and ideas come to life. But A3 prints are just as important for day-to-day operations. HP DesignJet T850 and T950 printers bring large format and A3 printing workflows together, so your workgroups can create high-quality prints in multiple sizes with fewer steps, all from a single printer.

Why switch?

Multi-size printing in one click

The HP DesignJet T850 and T950 plotters help you switch easily and quickly from large format to A3 and back again with automatic media selection and an integrated A3 input tray.

Boost your team's productivity with the HP DesignJet T950 plotter. Users can collect their jobs quickly and easily with a stacker that holds up to 40 pages[2] in a flat position and a sheet organizer that sorts A3 from other large format pages. The T950 also prints 120 A1 pages per hour and includes a 91 m roll. Both the T850 and T950 include multifunction printer models that enable you to share drawings and collaborate with colleagues wherever they are.

Security, simplified

Unsecured printers can leave you exposed to attacks. HP Wolf Pro Security helps keep your work secure.

Built-in endpoint protection at every level:
- Hardware
- Firmware
- Operating system

Go beyond

Meet office and environmental needs with robust HP DesignJet plotters.

- Contains at least 35% recycled plastics[3] and recyclable supplies[4]
- Helps reduce energy usage with automatic on/off power scheduling
- Prevents ink waste with efficient maintenance routines
- Forest first: With every page you print, HP invests in helping to protect, manage, and restore forests[5]

HP technology that keeps you connected

Bring physical and digital workflows together. Help everyone stay creative and productive, no matter where they're working from.

Connect to virtually anywhere

HP app
Stay on task, in or out of the office, with the HP app[6]— manage your device and print from anywhere using your mobile or tablet.

Software that works smart

HP Click
Print multiple files at once. Catch formatting mistakes early and avoid reprinting. HP Click makes it easy to save time and materials.

Bring the details to life

HP Flex Tech Inks

Quality you can see
Bold blacks and vivid colors combine with fine-line quality and excellent small-letter clarity to make any project, in any media, stand out.

Durability you can feel
Resistant to smudges and highlighter bleed, HP Flex Tech Inks hold up under the elements and out in the field.

Sustainability progress
Commit to minimizing your environmental impact with UL ECOLOGO® certified inks.[7]

Versatility for your project, your industry
